Program: Certificate Course in Microbiology lab safety

Class: B.Sc III Year Syllabus

Specific Program Outcome:

Impart Knowledge of the diverse places where microbiology is involved. Understanding of diverse Microbiological processes. Basic skills such as culturing microbes, maintaining microbes, safety issues related to handling of microbes, Good Microbiological practices etc. Moderately advanced skills in working with microbes such as Pathogens.

Specific Course Outcome:

Understand the basic components of the those are used in the microbiology lab and their proper handling.

Unit: I Potential health and safety hazards:

10

Fire and explosion

Ingestion and inhalation of chemicals and cultures

Chemical and thermal burn

Eye and hair injury

General laboratory safety practices

Unit: II General principles of Bio safety

10

Safe laboratory procedures:

Personal protective equipments,

Hand washing,

Specimen collection

Unit III: Disinfection and Decontamination:

10

Hand gloves

Used Media

Used stains

Apron

Glassware's

Practicals:

1. Fumigation by chemical method
2. Waste sterilization steps
3. Practical aspects of lab safety.
